

PIPEDREAM MASTURBATOR INTERACTIVE FUCK MY COCK

User manual

CONTROL

- 1) The masturbator is equipped with a sound unit and a vibrating cartridge.
- 2) The masturbator is switched on by pressing the button on the sound unit for about 3 seconds. The LED light will glow red.
- 3) The sound unit will speak (in English only) and the cartridge will vibrate.
- 4) Increase the volume with each short press of the power button.
- 5) The sound unit is equipped with a headphone port (3.5mm)
- 6) To turn the masturbator off, press the button on the sound unit for about 3 seconds.

MAINTENANCE

After each use, rinse the masturbator with lukewarm water and soapy detergent.

ATTENTION! Always remove the sound unit before starting maintenance!

You can also use an [erotic cleaner](#), which also helps to remove microscopic dirt.

Simply spray the product, leave it on for about 1 minute and then dry with a towel or cloth that does not leak fibers.

WATERPROOF

The masturbator is **not water resistant or waterproof!**

LUBRICATION

Use only [water-based lubricants](#). Other lubricating gels could damage the surface of the aid and it could become sticky.

DRIVE AND CHARGING

The masturbator is powered by an integrated Li-on battery, which is approximately half charged from the factory, but we recommend that you fully charge it before first use.

Charge the battery using the included USB cable, which can be plugged into a phone adapter, PC or powerbank. When charging, the LED flashes and when fully charged, the LED control lights up permanently. Charging time is about 90 minutes.

STORAGE

Store separately from other erotic aids in a dry and dark place.

PACKAGING CONTENTS

In the package you will find a masturbator and USB cable for charging.
