HOW TO RECHARGE

REMOTE CONTROL EGG --Full silicone eggs

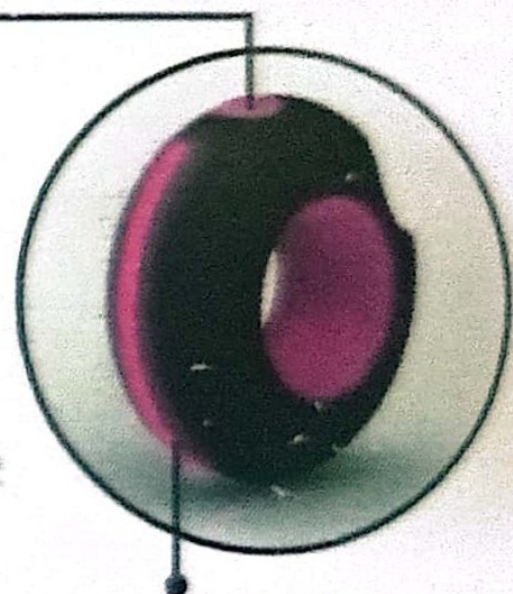

Button

Turn on/off--Press and hold the button on the controller/egg, enter 1st mode.

Click the button on the controller, change the modes.

When on 8st mode, enter the standby mode

The functions can be circulated

Sensual LED light enables you to operate easily even in the dark

If you can't connect the egg with controller, please try below instructions:

Press and hold the button on controller without stopping the red light stands by;

then press and hold the button on the egg.

The red light on the controller stops while the red light on the egg flickers, it means they connect.
