

AUTOMATIC MASTURBATOR KIIROO KEON

User manual

CONTROL

- 1) There are two buttons at the top of the back.
- 2) Hold down the larger power button for 3 seconds. The masturbator will start, jump and enter the mode pairing mode.
- 3) You will know this by the LED panel flashing blue.
- 4) Now connect it to the mobile app, which you can download from <https://www.feelme.com/>.
- 5) For manual control, hold the top smaller button for 2 seconds and the KEON will enter the control state.
- 6) Then use the left + and - buttons to add or subtract total travel distance, and the right buttons to control the speed of the movements.
- 7) Press the large power button briefly to pause and restart the movements.
- 8) To turn the masturbator off, hold the larger bottom power button again for 3 seconds.

MAINTENANCE

Do not immerse the entire masturbator in water. After use, remove the sleeve and wash it under warm water. You can also use an [erotic cleaner](#), which also helps to remove microscopic dirt. Simply spray the product, leave it on for about 1 minute and then dry with a towel or cloth that does not leak fibers.

WATERPROOF

Masturbator is not water resistant or waterproof!

LUBRICATION

Use only [water-based lubricants](#). Other lubricating gels could damage the surface of the aid and it could become sticky.

DRIVE AND CHARGING

The masturbator is powered by an integrated Li-on battery, which is approximately half charged from the factory, but we recommend that you fully charge it before first use.

Charge the battery using the included USB cable, which can be plugged into a phone adapter, PC or powerbank. Charging time is about 90 minutes.

STORAGE

Store separately from other erotic aids in a dry and dark place.

PACKAGING CONTENTS

In the package you will find a masturbator and USB cable for charging.
