MAINTENANCE

After each use, rinse the anal plug with lukewarm water and soapy detergent.

You can also use an [erotic cleaner](#), which also helps to remove microscopic dirt.

Simply spray the product, leave it on for about 1 minute and then dry with a towel or cloth that does not leak fibers.

WATERPROOF

The anal plug is **waterproof**, so maintenance is very easy.

It may get splashed with water, but you can safely immerse it in water and enjoy water play.

LUBRICATION

Use only [water-based lubricants](#). Other lubricating gels could damage the surface of the aid and it could become sticky.

DRIVE AND CHARGING

The cartridge is powered by an AAA battery. We recommend using an alkaline battery for greater durability or rechargeable batteries.

STORAGE

Store separately from other erotic aids in a dry and dark place.

PACKAGING CONTENTS
