

VIBRATING RING YEQU DESIRES REMOTE CONTROL

User manual

CONTROL

- 1) Hold the power button on the cover for 3 seconds to turn on. The ring will greet you by lighting the LED and going into standby mode.
- 2) Subsequent short presses of the button will turn on and change the vibration and pulsation modes.
- 3) Turn it off by long pressing the power button again for 3 seconds.
- 4) For use with the remote control, place it in standby mode.
- 5) Short presses of the button on the remote control will turn on and change its modes.
- 6) Hold the button for 2 seconds to pause the vibration.
- 7) To turn it off, you must again press the button on the stimulator directly.

MAINTENANCE

After each use, rinse the ring with lukewarm water and soapy detergent. You can also use an [erotic cleaner](#), which also helps to remove microscopic dirt. Simply spray the product, leave it on for about 1 minute and then dry with a towel or cloth that does not leak fibers.

WATERPROOF

The ring is **water resistant**, so maintenance is very easy. The ring can be splashed with water, but you **MUST NOT immerse it in water!** Waterproof means that you could completely submerge the product in water and enjoy water play. Due only to the water resistance of the product, this is not possible in this case.

LUBRICATION

Use only [water-based lubricants](#). Other lubricating gels could damage the surface of the aid and it could become sticky.

DRIVE AND CHARGING

The ring is powered by an integrated Li-on battery, which is approximately half charged from the factory, but we recommend that you fully charge it before first use. Charge the battery using the included USB cable, which can be plugged into a phone adapter, PC or powerbank. The remote control is powered by 12V battery.

STORAGE

Store separately from other erotic aids in a dry and dark place.

PACKAGING CONTENTS

In the package you will find a vibrator, remote control, USB cable for charging and 12V battery.
