

**Before use**

Open the battery compartment of the remote control and insert the right batteries. Put the two small bullet vibrators into the holes on the underside of the masturbator.

**Use**

Apply lubricant to the opening you want to use. Gently slide your penis into the masturbator. Use the rotary knob to change the intensity of the vibrations. Please note that due to the flexible nature of the masturbator, the toy will wear out over time.

**How to operate**

To turn on the vibrations, turn the rotary knob on. Turn the knob to the desired intensity. Turn off the vibrations by turning the rotary knob off.

**Lubricant**

Use a water-based lubricant. Other lubricants and massage oils can negatively affect the material and are therefore discouraged.

**Cleaning**

After use, remove the two small bullet vibrators from the masturbator. The bullet vibrators cannot be submerged in water. Rinse the masturbator with lukewarm water. Apply toy cleaner or mild soap and thoroughly rub it clean. Rinse the masturbator with lukewarm water again. Repeat these steps if necessary. Lay the toy down to dry or dab it dry with a clean, lint-free cloth or towel. Optionally, apply masturbator renewal powder to protect the masturbator and keep the material flexible.

**Storage**

Safely store the masturbator in a dry and dark place away from extreme temperatures, out of reach of children and animals.

**Safety instructions**

Do not use the toy in the following situations: on swollen, irritated, or inflamed skin or wounds on the penis, after surgery in the pelvic area, if one of the components is damaged and/or if you have an allergic reaction to the material or if you are aware of an existing allergy to the material. In case of cardiovascular disease, consult your doctor before using the toy. If pain and/or discomfort occurs, stop using the product immediately and refrain from further use. Do not use the toy in the neck area. Do not share the toy with others to avoid illness and infection. Never use old and new batteries or batteries of different types at the same time. After inserting the batteries, make sure the battery compartment is tightly closed. Thoroughly clean the battery contacts in case of battery leakage. After using the toy, remove the batteries from the toy to extend their life and prevent corrosion. Moisture can damage the engine and the batteries. If moisture enters the remote control, turn it off immediately and remove the batteries. The remote control may only be used when the inside is completely dry. In case of overheating, turn off the toy immediately and allow it to cool down before using it again. Do not clean with products containing alcohol, silicone, gasoline, acetone, or other corrosive substances. Not suitable for the washing machine or dishwasher. Suitable for external use on the penis. Only use the toy as intended and as directed.

**Disposal information**

Remove the small bullet vibrators from the masturbator before disposal. The masturbator can be disposed of in household waste in an environmentally friendly manner. Do not dispose of the small vibrating bullets, remote control, and the batteries in household waste. The symbol with the crossed-out dustbin indicates the separate collection of electrical and electronic equipment waste. Dispose of the small vibrating bullets and remote control in a collection point for the recycling of electronic devices. As a distributor of electronic equipment, we accept returns of discarded electrical and electronic equipment free of charge. You must return used batteries, at public collection points or where batteries are sold. Remove the batteries safely with commercially available tools and handle them carefully, as they contain harmful substances for health and the environment. Consider local disposal options and avoid the creation of unnecessary waste.
