

# NO-PARTS AVERY STRAPLESS STRAP-ON VIBRATOR

## User manual

### CONTROL

- 1) Hold down the bottom power button for 3 seconds to turn it on and put it into standby mode. The vibrator will greet you with a flashing LED.
- 2) Short presses of the top button turn on and change the individual vibration and pulsation rhythms.
- 3) Long press and hold the bottom power button for 3 seconds to turn the vibrator off.
- 4) For use with the remote control, turn the vibrator to standby mode and briefly press the power button on the remote.
- 5) Start its first vibration and change its rhythms with repeated short presses.
- 6) Hold the button on the remote for 3 seconds to pause the vibration.
- 7) You must then turn the vibrator off with its own button.

### MAINTENANCE

After each use, rinse the vibrator with lukewarm water and soapy detergent.

You can also use an **erotic cleaner**, which also helps to remove microscopic dirt.

Simply spray the product, leave it on for about 1 minute and then dry with a towel or cloth that does not leak fibers.

### WATERPROOF

The vibrator is **waterproof**, so maintenance is very easy.

It may get splashed with water, but you can safely immerse it in water and enjoy water play.

### LUBRICATION

Use only **water-based lubricants**. Other lubricating gels could damage the surface of the aid and it could become sticky.

### DRIVE AND CHARGING

The vibrator is powered by an integrated Li-on battery, which is approximately half charged from the factory, but we recommend that you fully charge it before first use.

Charge the battery using the included USB cable, which can be plugged into a phone adapter, PC or powerbank. When charging, the LED flashes and when fully charged, the LED control lights up permanently. The remote is also powered by an internal battery that you recharge with the same cable as the vibrator.

### STORAGE

Store separately from other erotic aids in a dry and dark place.

### PACKAGING CONTENTS

In the package you will find a vibrator, remote control and USB cable for charging.
