

PIPEDREAM PDX ELITE SUCK-N-PUMP STROKER PUMP

User manual

CONTROL

- 1) Unscrew the top cap and insert the batteries according to the marked poles.
- 2) Then screw back in and turn the top wheel, which is used for vibration control.
- 3) To change the mode of stimulation, disconnect the balloon from the tubing, turn it over and put it back on.

MAINTENANCE

After each use, rinse the product with lukewarm water.

We also recommend using an [erotic cleaner](#), which also helps to remove microscopic dirt.

Simply spray the product, leave it on for about 1 minute and then dry with a towel or cloth that does not leak fibers.

WATERPROOF

The product is **water resistant**, so maintenance is very easy.

Water resistant means that splashing water will fall on it, but you **MUST NOT submerge it in water!**

You could only immerse the product in water if it was **waterproof**.

LUBRICATION

Use only [water-based lubricants](#). Other lubricating gels could damage the surface of the aid and it could become sticky.

DRIVE AND CHARGING

The product is powered by two AA batteries. For greater endurance, we recommend using alkaline or rechargeable batteries.

STORAGE

Store separately from other erotic aids in a dry and dark place.

PACKAGING CONTENTS

In the package you will find a vacuum pump.
