

PELVIC FLOOR STRENGTHENING KIT Y.LOVE AFRA

User manual

CONTROL

- 1) Hold down the power button for 2 seconds and the egg will welcome you by lighting up the LED and turning on to standby mode.
- 2) Subsequent short presses of the button turn on and change the individual rhythms of vibration and pulsation.
- 3) To turn it off, long press the power button again for 2 seconds.
- 4) For use with the remote control, place the egg in standby mode.
- 5) The remote does not turn on in any way, so short presses immediately turn on and change its vibration rhythms.
- 6) Hold the button on the remote for 2 seconds to pause the vibrations.
- 7) You then have to turn the egg off with its own button.

MAINTENANCE

After each use, rinse the egg with lukewarm water and soapy detergent.

You can also use an **erotic cleaner**, which also helps to remove microscopic dirt.

Simply spray the product, leave it on for about 1 minute and then dry with a towel or cloth that does not leak fibers.

WATERPROOF

The egg is **water resistant**, so maintenance is very easy.

The egg can be splashed with water, but you **MUST NOT immerse it in water!**

Waterproof means that you could completely submerge the product in water and enjoy water play.

Due only to the water resistance of the product, this is not possible in this case.

LUBRICATION

Use only **water-based lubricants**. Other lubricating gels could damage the surface of the aid and it could become sticky.

DRIVE AND CHARGING

The egg is powered by an integrated Li-on battery, which is approximately half charged from the factory, but we recommend that you fully charge it before first use.

Charge the battery using the included USB cable, which can be plugged into a phone adapter, PC or powerbank. The remote control is powered by CR 2032 batteries.

STORAGE

Store separately from other erotic aids in a dry and dark place.

PACKAGING CONTENTS

In the package you will find a vibrating egg, 2x Venus balls, remote control, USB cable for charging and battery CR 2032.
